

## Flight Operations In The Danger Zone

Important review of recommended guidance and best practices on safe flight operations at non towered airports. This meeting will feature a Representative of the FAA Safety Team and a Designated Pilot Examiner. In addition, the team may also have members from FAA field offices. Pilots and flight instructors that use the Shenandoah Valley Regional Airport are encouraged to attend. Don't miss this opportunity to share your concerns and best practices in effort to make the airport safer!

**Directions:** From I-81 North or South, take Exit 235, VA-256 exit. Towards Weyers Cave / Grottoes. 2.4 miles, Turn right onto Weyers Cave Road. 0.8 miles, Turn right onto Airport Road. Take second left onto Aviation Circle, 77 Aviation Circle is on the right. Briefing in Terminal Building.

### A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
